Data Management

Med DataCare Pro, with over 12 years of experience and expertise is the technology touch to the care you provide to your patients. Our plus factor gives us the edge in quality healthcare outsourcing and data management services.

Our vision is to let healthcare professionals do what they do best – care for lives. And do what we do best – care for their reimbursements.

Our 360 degree services across Medical Transcription, Healthcare Data Management, Medical Coding, Billing and Revenue Cycle Management services have made us the preferred choice for healthcare providers.

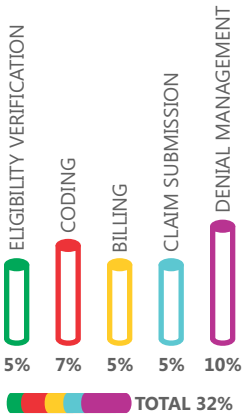

The Med DataCare Pro Plus Factor

SAVE up to 60% on operational costs

- Reduce recruitments – we'll be on your staff, not on your payrolls.
- Paperless office – our better technology will increase efficiency.
- Reduce admin upgradation costs – our certified team is trained and upgraded.

EARN up to 32% more revenues

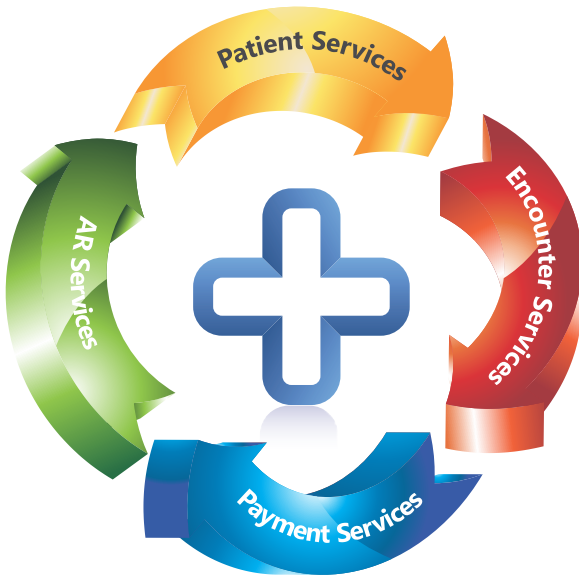

- With better all-round services save time and effort and also earn 32% more.
- Grow your practice with better patient care and better client satisfaction.
- Our technology enables you to take clinical and financial decisions at the click of a button.

FREE EMR + PMS integration with our offerings

- A CCHIT certified EMR solution with PMS integration.
- A package customized as per your specialty and requirements.
- It can also bring you the **\$44,000** stimulus at no extra cost.
